

LIVING LANDSCAPES

Sharing images and stories about your favourite local landscapes

We want to find out about natural spaces within PAE that are the most cherished by our community and why. Share an image of your favourite natural landscapes within PAE and tell us why this space is so special to you. We will select a range of images and stories submitted by the community to create a travelling exhibition that celebrates our natural landscapes as well as look at opportunities to use images and stories shared to promote our living landscapes.
